

Plating of Dummy Terminal

Type of Change:

- Engineering
- Part Number
- Product
- Appearance

The terminal plating of M Series Toggle switches will be changed. Only dummy terminal is affected. No change on common and contact terminal. No change to specifications and dimensions.

This change will affect the following products:

M Series Toggle switches SPST (ON-OFF) and DPST (ON-OFF), including all custom models.

Example:

SPST: all part numbers starting with M2011

DPST: all part numbers starting with M2021

Change of Dummy Terminal Plating	
Before Change	After Change
Nickel Plating	No Plating

Effective Date

Change will be effective with April 2012 production.
