Changes to Location & Production for B Toggles

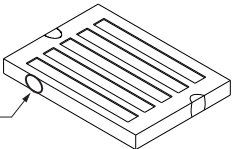

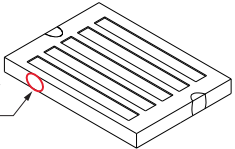

Type of Change:

- Engineering Part Number
 Product Appearance

The location of production will change for B Toggles from the China factory to the Philippines factory. The box in which the switches are packaged for shipping will read "PHILIPPINES FACTORY" instead of "CHINA FACTORY." The lot number on the side of the switch case will have a dot mark above the second digit instead of the first digit. All of these modifications will apply to both nonilluminated and illuminated, standard and custom B Series Toggles. Effected basic part numbers continue on page 2, but include all combinations of caps, cap colors and LEDs.
